PRODUCT CATALOG

WELCOME TO BRENSPEED

MORE THAN JUST BRENSPEED.COM!

At Brenspeed we are bringing a new school philosophy to an old school market. Sure, we have a modern website with amazing deals on all of the hottest parts, but did you know we also install and race every part we sell? We are not just another internet warehouse trying to sell every profitable product produced in today's market. We are a performance oriented company that is backed with 30 years of racing experience carrying degrees in Mechanical Engineering and Automotive Technology. With many hours of R&D spent on every product we sell, you can feel confident that we can assist you from purchase to the finish line. "Your vehicle is a big investment and we understand that. Brenspeed works closely with our suppliers to offer the best price possible so we can keep your dollar per horsepower ratio to your advantage. In this day and age only an innovative company like Brenspeed will take a customer to the next level of automotive performance at a reasonable price. Those who try to copy and imitate us tomorrow will do their customers a disservice by leaving them one day and one step behind."

B. White, Owner
Brenspeed LLC.

NEW LOOK! MORE PARTS! BETTER PRICES! MORE CONTENT!

Brenspeed's new website offers the same helpful content as before but will offer improved product images, more information about the products and customer reviews. Check out our new website at www.BrenSpeed.com today!

BRENSPEED CUSTOM DYNO TUNING!

In this day and age it is necessary and in our opinion required for a performance parts supplier to have a full understanding of the advanced fuel injection & vehicle management system that today's vehicles are using. With the introduction of the 2005 Mustang this philosophy of ours hit home with a lot of companies that do not custom tune and R&D the parts they sell. The new Fords no longer take full advantage of the various bolt on performance parts that were so popular over the last 20 years and this is where custom tuning can at times double your performance gains. Because of our dedication to the new Ford Mustang we have become the premier supplier of custom mail order tuning on the 2005 to 2009 Ford Mustang.

BRENSPEED PARTS & INSTALLATION CENTER!

Did you know Brenspeed not only can supply you with most any type of performance product for your Mustang but we can install them as well? That's right, Brenspeed offers full installation on all of the items we sell. Stop by and check out our retail showroom or make an appointment for tuning on our Dynojet chassis dyno. No other company in the United States specializing in Mustangs has you covered from so many angles. We offer same day shipping on 1000's of in stock products at a very competitive price. Free shipping within the 48 states on orders over \$50. Professional installation is available for each item we sell. We offer industry leading mail order and in house custom tuning and all of the Brenspeed sales team are experienced racers and Mustang enthusiasts.

 **FREE UPS GROUND SHIPPING!**

2005-2009 DRIVELINE ACCESSORIES

2005 - 2009 MUSTANG GT DRIVELINE MODIFICATIONS

TCI SUPER STREETFIGHTER 5R55S TRANSMISSION

Until now, owners of late model Ford Mustangs had little choice with regards to a transmission that could withstand the additional stress commonly found when incorporating a power adder. This transmission is rated to handle up to 650 hp and is a direct bolt-in replacement for your factory unit.

\$2933.00

TCI STREETFIGHTER TORQUE CONVERTORS

TCI StreetFighter Torque Convertors bring the launch rpm in line with the performance enhancements of your automatic Mustang.

STREETFIGHTER

3000 STALL

SUPER STREETFIGHTER
\$869.99
3500 STALL

PERFORMANCE AUTOMATIC DEEP PAN KIT

This Performance Automatic Deep Transmission pan holds 4 extra quarts of fluid for added cooling. Dipstick included.

\$399.95

TCI STREETFIGHTER AUTOMATIC RATCHET SHIFTER

The '05-'08 Ford Mustang GT is the hottest late model performance vehicle on the market, however the stock shifter has some drawbacks when it comes to serious street/strip performance. The new TCI® StreetFighter® '05-'08 Ford Mustang Ratchet Shifter provides a positive stop shifting action that allows you to manually "speed shift" the transmission without fear of hanging between gears or missing a gear all together.

\$CALL FOR PRICING

SLP LINE LOCK ROLL CONTROL KIT

ABOUT THE X3 & BRENSPEED CUSTOM TUNES:

When your X3 arrives it will already be loaded with your Brenspeed custom tune. By simply plugging the X3 into your vehicles OBDII port and loading our custom tune your Mustang will be running a Brenspeed custom tune in a matter of minutes. At any time you can return the vehicle back to the factory computer calibration buy using the return to stock feature on the X3 programmer. It is just that easy.

PLANNING FUTURE MODIFICATIONS?

We have you covered! If you are running our Brenspeed tune & you purchase any part from Brenspeed we will modify your current tune on file for that new part for free! Don't let plans of future modifications prevent you from running our custom tune now. We will support your future Brenspeed purchases as they happen.

BRENSPEED CUSTOM TUNED X3 POWER FLASH

Includes a custom tune designed specifically for your current vehicle modifications. Once the custom tune is made we will modify it to support 3 available fuel octanes in your area. Experience the fastest throttle response possible along with improved power & torque.

\$379.00

BRENSPEED CUSTOM TUNED X3 FOR POWER-ADDERS

Includes one custom tuned designed specifically for your aftermarket power adder & current modifications. This custom tune will be modified for the premium fuel available in your area. Brenspeed tunes for Saleen, Whipple, Roush, Paxton, KB, Vortech, Hellion Turbo, Nitrous, & more! Call for details.

\$479.00
